credit recovered for owners

HOW IT WORKS

Automation through connection.

Every action triggers the next with zero owner effort.

01

Customer books

They pick a service, staff member, and time slot. A confirmation goes out instantly. Reminders fire at 24h and 2h — automatic, in their language.

02

Sale completed

One-tap billing at the counter. Stock decrements. The customer record updates. Profit flows into your P&L. All at once, zero effort.

03

Review requested

Two hours after completion a review request goes out. Five-star customers go to Google. Complaints stay private and become support tickets.

04

Nightly Close arrives

At 10 PM local time: sales, profit, new reviews, tomorrow's bookings, credit recovered, low-stock alerts. One tap for the full report.

16 MODULES, 1 LOGIN

One login. Everything in it.

No stitching six apps together. No broken syncs. One system where every action feeds the next.

Reviews & Reputation

Bookings & Appointments

Orders & Billing

Customer Credit Ledger

Unified inbox, auto-requests, Google routing, QR code, reply AI, widget.

Public booking link, staff calendar, reminders, one-tap reschedule.

Fast POS, invoices, quotations, online orders, table QR, receipt printing.

Digital udhaar/khata/tab. Balances, statements, automated polite reminders.

Inventory

Auto-decrement on sale, low-stock alerts, wastage tracking, supplier costs.

Profit & Loss Engine

True P&L, hourly patterns, best sellers, dead stock, AI what-if calculator.

Customer CRM

Full history, auto-tags, birthday greetings, segments, one-tap campaigns.

Staff Management

Attendance, commission rules, performance reports, task assignment.

Marketing & Growth

Broadcasts, review-to-social posts, referral codes, competitor tracking.

Multi-location

All branches, one login. Roll-up dashboards, comparisons, branch AI.

Deep Search

Type 3 characters, find anything — customers, orders, reviews, settings.

AI Business Assistant

Ask your own data. "Today's sales?" "What's this customer's balance?"

Nightly Close

Your whole day in one message, every night at 10 PM in your timezone.

Mobile App + Offline

React Native iOS & Android. Sales queue offline and sync when you're back.

Reports & Exports

Branded PDFs, Excel exports, accountant-ready P&L, full account zip.

Multi-language & RTL

English, Spanish, Arabic, Urdu, Hindi + more. Full right-to-left support.

MODULE 4 — CREDIT LEDGER

The tab, digitized. Politely collected.

Every small business extends credit to regulars. Khatabook calls it khata. Argentinian shops say fiado. Noxtill digitizes every debt, tracks every payment, and sends one-tap polite reminders — recovering money owners forget to chase, without a single awkward conversation.

MODULE 14 — AI BUSINESS ASSISTANT

Ask your business anything.

The AI Business Assistant answers questions about your own data — sales, staff, stock, customers, credit — using Claude tool calls scoped strictly to your business. It never invents a number, never guesses, never shares your data with anyone.

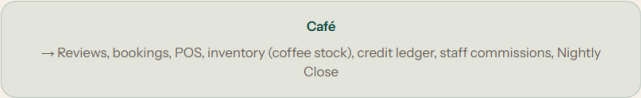

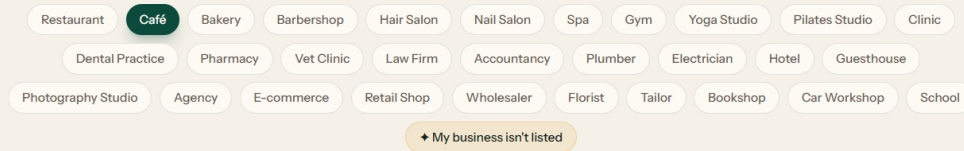

- ✓ Works in your language, answers in your language
- ✓ Every number sourced from a live tool result — never fabricated
- ✓ Read-only in v1 — it asks before it ever changes anything
- ✓ Coming soon: ask over WhatsApp without logging in

UNIVERSAL COVERAGE

Built for every business on earth.

Pick your type and get a dashboard pre-configured for you. Not on the list?
Describe your business in one line — AI generates your setup in seconds.

TRUST & SECURITY

Built for businesses that cannot afford downtime.

Your data, yours alone

Strict multi-tenant isolation at every layer — database, search indexes, AI tool calls. Cross-tenant access is architecturally impossible.

Full export, always

Settings → Export → done. Your entire account as a zip file, any time, in one click. Your data is never hostage.

Works offline

Sales entered without connectivity queue locally and sync when you're back. Built for markets with unreliable power and internet.

Speaks your language

English, Spanish, Portuguese, French, Arabic, Urdu, Hindi — and growing. Full RTL support. AI matches the owner's

Daily automated backups

Automated backups every 24 hours with tested restores. Your records are safe regardless of what happens on our

Immutable audit log

Every financially significant action — sale, payment, refund, deletion — is permanently logged with actor,

language automatically.

end.

values, and timestamp.

Get your first Nightly Close tonight.

Set up in ten minutes. One system for your whole business. Every night at 10 PM, your whole day in one message.
